Special savings on 3-year subscriptions when you trade in eligible perpetual licenses

Available from

February 7, 2017

to April 21, 2017

Submit serial numbers prior to purchase

Call us: (021)4344788

Special Offer Summary

Customers with eligible Release 14 (approximately 1998)-2017 perpetual licenses without a corresponding maintenance plan can save up to 30% when they purchase new 3-year subscriptions AND trade-in the eligible perpetual license serial numbers. Customers must discontinue use of all seats corresponding to each serial number.

This is a great opportunity for customers to move to an industry collection or another product, as the new 3-year subscription does NOT have to be to the same product as the traded-in perpetual license.

Customers trading in a perpetual license for Autodesk LT Family products may trade-in for a discount on a subscription to LT Family products only.

Special Offer Conditions

- Can be co-termed to existing licenses provided they have the same term length
- Cannot be combined with other promotions or discounts
- Cannot be combined with Volume Purchase Agreements and Major Account discount

Trade in and trade up

Now is the best time to enjoy savings and subscribe. Customers can trade-in their old licenses and trade up to the newest versions.

Join the majority of customers who have already shown a preference for Autodesk subscription options over perpetual software licenses.

For those customers who have not tried subscription, this offer is a great way to get current and leverage the value of subscription. With this trade in offer, customers can get a three-year subscription at 30% off—locking in their price for the whole term!

Please see next pages for a full list of eligible Autodesk products and subscriptions.

Top questions from customers moving from perpetual licenses to subscription

What if I do not want to update immediately when updates are available?

Customers who subscribe get access to the most up-to-date Autodesk design and creation tools as they are released. They have the control over when they update. Additionally, customers who subscribe get *Previous Version Rights* access to select previous versions of the software they subscribe to (where available).

I plan my budget long term – what are my options? What about subscriptions for teams?

With single-user or multi-user options and quarterly, annual and multi-year terms, there are many options to help make managing your software budget easier. The 3-year subscription term in this promotion allows customers to lock-in the price for the 3-year term.

What if I have trouble using software subscription?

Subscribers have access to a range of Technical Support options to minimize delays and downtime.

I work from home, the office, and on the road and need my software in all three places. What can I do?

An advantage of subscribing is that customers have *Home Use* and *Global Travel Rights* – allowing use of the software virtually anywhere, any time.

What else do I get with my subscription that I don't get with my perpetual license?

In addition to the benefits described above, subscribers also have access to collaboration tools, secure storage, faster rendering and visualization capabilities. They also have access to Administrative Tools, like contract reports, usage reports and more help you keep track of your benefits.

I am not always connected to the internet. Will I lose access to my software?

No! You'll need an internet connection to activate your software the first time you use your new subscription. You can then work offline for up to 30 days, at which point you'll need to connect to the internet to keep using the software.
